**Accomplishments:**

- Working CAN-wifi bridge

**Plan:**

-

**Pending Issues:**

Continuing problems with CAN that need to be solved. Programs with the same assembly code are behaving differently on the PIC. A lot of time has been put into trying to figure out what is different causing this.

**Individual Contributions:**

Alec - Helped Ahmad debug the CAN, Created the presentation that was presented to instructor

Ahmad-Debugging the CAN connection and connecting CAN to UART with simple messages

John - Advancement on UI for android. Started getting into specific details like Macros and Included objects. This requires a more advanced understanding of the Android API and View listings. Started a document based around these translations
